

An easy, affordable, non-invasive hair strand test to pinpoint the intolerances that may be affecting your pet's day-to-day wellness.

INTOLERANCE TESTING KIT FOR PETS

Providing personalized information to make informed decisions and take control of your pet's diet, health and well-being.

HOW IT WORKS

Using just a sample of your pet's hair along with bioresonance technology, UCARI measures the frequency and temporary imbalances occurring within your pet's body.

WHAT'S INCLUDED

- Folder with unique kit ID and 4 easy, step-by-step instructions
- Sample collection bag
- Prepaid return envelope
